4860 Monterey Road, Gilroy, CA 95020
www.HeadstartNursery.com

Dear Organic Customer,

It is required of Headstart Nursery that we supply documentation that appropriate measures in sourcing seed were taken by customers requesting organically certified transplants. This requirement applies to non-organic seed supplied by the customer.

Headstart Nursery will not accept any seed treated with prohibited substances, or any GMO variety seed for use in producing organically certified plants. Growers should be aware that there are further requirements in documenting due diligence in their search for organically grown seed. Details of these requirements can be examined by reviewing section 205.204 of the NOP standards.

By completing and signing below, you indicate that you are aware of these guidelines and have followed them to the best of your ability. Be aware that you will be asked to supply evidence of your search for organic seed at your individual certifier inspection.

Thank you in advance for your time in completing the information below. Please fax or mail the completed form to our office at your earliest convenience.
