#### LETTER OF GUARANTEE

Headstart Nursery, Inc. of California produces and sells only quality vegetable transplants from seed supplied by licensed breeders and producers. We do allow for our customers to supply seed from outside sources for use on their greenhouse production as long as the seed supplied meets our quality assessment criteria.

We follow good agricultural practices in the handling and storage of our products. All seed varieties run through Headstart Nursery, Inc. are traceable by producer, variety, seed count and lot number. A copy of our OSP master is included for your review. Any records related to production of our transplants are available upon request.

Regards,

Maria Alfaro  
Headstart Nursery, Inc.
